The NSHRF Annual Report

The NSHRF's 2012 Annual Report is now available on our [website](#). The report, *Priorities Matter*, focuses on the relevance of the NSHRF's Health Research Priorities.

Happy Holidays from the NSHRF

Happy holidays and best wishes for a safe and healthy New Year from the Board and staff of the NSHRF. View our environmentally-friendly electronic card, created by [Kim Squared](#), [here](#).

Scotia Scholar Funding Opportunity

The NSHRF is pleased to announce the launch of the 2013-2014 Scotia Scholar Funding Opportunity. The [Scotia Scholar Award](#) will be offered at the Master level this year. Students interested in being considered for a Master Level Scotia Scholar Funding Opportunity should review eligibility criteria, application requirements and evaluation criteria details on our [website](#). After reviewing the funding opportunity details, students should then check with their respective universities for internal deadlines and processes.

Call for Peer Reviewers

The NSHRF is currently accepting nominations for the 2013 Research Programs Peer Review Committees. Details of our peer review process, guidelines, committees and roster system can be found on our [website](#).

Researcher Profile

Michael Leiter, PhD, and his team at Acadia University have conducted a national study on nurses' career aspirations to management roles. The results from the study are aimed at recruiting and developing future nursing leaders. To read more about Leiter's study, [click here](#).

Canada to host the 2013 Cochrane Collaboration

The [Cochrane Collaboration](#) is a high profile, not-for-profit health research organization with 14

Women of Excellence Award

Congratulations to the NSHRF's CEO, Krista Connell, who was awarded a Canadian Progress Club *Women of Excellence* Award. The awards dinner, held in November, is the only one of its kind in the region celebrating women of excellence from a variety of backgrounds. To see the full list of 2012 winners, [click here](#).

One of the NSHRF's own featured in O, the Oprah Magazine

One of the NSHRF's favorite things, Dr. Nancy Carter, has been quoted in the December issue of *O, the Oprah Magazine*! Read the article in which Nancy is quoted [here](#). To review her full study on peoples' generalized ideas of trust, [click here](#).

Common CV for Upcoming Competitions

For future competitions, the NSHRF will be modelling their Canada Common CV template after those created and used by CIHR. Please be aware that while the NSHRF will strive to keep the CCV templates as close to the original as possible, there may be select NSHRF specific content required. At this time, the NSHRF has one CV type called: **Full Applicant CV** and this CV can be completed at anytime.

Please Note:

Previously there was a section called **Contribution Details** where applicants would upload a separate word document with the completed information. In the new system, we will not require a separate upload but will require users enter the data directly into the Common CV system. The number of mandatory entries will be set as per the requirements of the relevant competition.

Centres worldwide. Annual Colloquia are held to advance the work of the Collaboration to ensure they meet the ongoing challenge of producing reviews that address globally important health care questions. With the NSHRF's CEO, Krista Connell, being the Chair of the Canadian Cochrane Centre Advisory Board, we are pleased to announce that beautiful Quebec City will host the Cochrane Collaboration's 2013 Colloquium. The Colloquia will bring together up to 1200 international experts (researchers, health care professionals, policy-makers and consumers) who are both Cochrane members and those who wish to learn more about the Collaboration. With the theme *Better Knowledge for Better Health*, the Colloquium will commence on September 20, 2013. To learn more about the Colloquium and Quebec City, [click here](#).
